SAFE AND PRODUCTIVE SOLUTIONS
FOR STEELMAKERS WORLDWIDE

ROBO-TEST™

Auto Steel Test System

The most customized, robust, adjustable, safe and reliable temperature sampling manipulators for EAF's and LRF's.

ROBO-TEST™ FEATURES & BENEFITS

- Flexible design options. (Turret | Monorail | Suspended)
- System includes manipulator, power and controls.
- Compact design preserves floor space.
- PLC controlled for accuracy of operation.
- PLC provides diagnostic and alarm functions.
- Highly adjustable for accurate results every time.
- Fast cycle time means quick results. (30 seconds or less)
- Robust construction for low maintenance.
- Hydraulic operation for low maintenance.
- Water cooled for low maintenance.
- Quick disconnect means 3 minute pole changes.
- Remote control reduces accident exposure.
- Reduced lost time injuries leads to higher productivity.
- High test accuracy offers reduced energy consumption.

ROBO-TEST™ CUSTOMER TESTIMONIALS

"We rarely work on the Robo-Test™ during our weekly maintenance outage. The machine requires almost no maintenance."

Nucor Steel
Seattle, WA USA

"This is one of the best machines we have installed in our shop."

Steel Dynamics
Butler, IN USA

"Results are reproducible and highly consistent from test to test."

Hyundai Steel
Pohang, South Korea
